

Description

M201 video monitor is a full IP solution for the communication in luxury Homes, Residential buildings, Condominiums or Office buildings.

Thanks to its technology and Peer2Peer facilities M201 monitors do not require any server on the installation.

The protocol of communication is TCP/IP which makes possible to be connected to a LAN together with other IP devices in the same installation. The system never becomes busy thanks to the multi-channel feature.

Features

- Image memory up to 50 pictures.
- Intercommunication between apartments.
- Call transfer to concierge or other monitor.
