LIVE & FAKE FINGERPRINT DETECTION TECHNOLOGY

IF YOU USE SMART PHONE...

“Can be able to check access log in any time?”

“By using Wi-fi, there won't be network installation.

If so, installation cost will be less?”

“If the color TFT LCD is not on the device, we can have better price, compact device.”

Is there any device
can check door
status from
anywhere anytime?

Is there any device with
better **Price and Size?**
